Years 2 and 3:

With only two weeks to go, we have really been making the most of our time left in school. In Maths we have continued to focus on the four operations of adding, subtracting, multiplying and dividing. All the times table practice at home is really helping, thank you! In English we are now bringing all the skills we have learnt over the year, together, to produce stories, letters and poems more independently.

In both Years 2 and 3 we have had a virtual trip to Longleat Safari park. We dressed up and had a tour of the park, learning lots of interesting facts about new and familiar animals. It was such a fun day and lovely to see the children so engaged with their learning-big smiles all round.

For the last few weeks, our afternoons have been filled with Art, as year 2 study Henri Matisse and Year 3 study the work of Yayoi Kusama. Children have been submerged in work of these artists, experimenting and refining new techniques. So many of our children have really flourished over the past few weeks and we have many budding artists at Sutton Park Primary! We will update our social media page with the artwork for you to admire.

Year 3 have been continuing with our Roots to Fruits project and have thoroughly enjoyed their work in the poly tunnel and garden area. Those who have not had a chance this term will get to go in the Autumn term- watch this space. As children come to the end of the academic year, we thank you for all your support over this year, it has been like no other!

Mrs Davin

EYFS:

Our Nursery and Reception children were the stars of the show in our prospectus filming and photography last week! They really did us proud and It was wonderful to showcase all of their fantastic learning, especially their Vincent Van Gogh inspired artwork. We have been so impressed by the creativity shown over the past few weeks and are extremely excited to see our final pieces take their place in our whole-school art gallery.

Years 4, 5 and 6:

With the end of summer term fast approaching our children in KS2 have been very focused on making the most of their remaining few weeks. All children have been engaged with our art gallery project, exploring and recreating the work of important artists. In addition, year 6 are reflecting on their memories of primary school and looking forward to the end of year arrangements. They have been discovering more information about their new secondary school through virtual transition meetings which have provided lots of opportunity to ask questions! They have enjoyed their Bikeability sessions, with many progressing to level 2. Congratulations!

Year 5 have also enjoyed Bikeability, the enthusiasm of children taking part has been wonderful to see. However, the most exciting event for our year 5 children recently has been the delivery of their own personal iPad, to use in school from now until the end of year 6! Their reactions were of utter joy mixed with disbelief. We are so pleased they have this fantastic opportunity to explore and be creative with technology. Special thanks must go to Mrs Shotter who secured the funding from the DFE to provide our children with this great resource.

Year 4 are absorbed in the work of 'Banksy' and in designing their own artwork based on his ideas. I have been so impressed with their ideas so far. In writing they have been exploring 'Fantastic Beasts' and crafting their own mythical creature to insert into a story. Year 4 really has been a hive of creative energy!
